SKILLS AND CAREER OPPORTUNITIES

The program will equip you with the knowledge and skills required for being a successful language teacher in the 21st century classroom. You have two options – Russian or English as a medium of instruction, depending on your pre-selected teaching major. You will be prepared to create your own teaching materials and courses for various target groups in digital environments. Our graduates will be able to apply effective strategies and design tailor-made online courses. They will acquire the graphic design skills for business and academic purposes.

The program offers a variety of workshops held by renowned experts in areas of interest. The final semester is dedicated to research and project work related to the Master's thesis and completing an internship module designed to enhance and further develop professional skills.
